—— *Works of Reference*, Goldsmith's Animated Nature, and Rogers & Kirby's Bridgewater Treatise.

SECOND SESSION.

Græca Majora, continued: Orations of Demosthenes, Xenoph. Memorabilia, Aristotle's Rhetoric;
 Cicero de Oratore;
 Geometry, completed;
 Zoology, completed;
 Botany;
 Rhetoric;
 Elocution and English Composition.

Junior Year.

FIRST SESSION.

Plane and Spherical Trigonometry;
 Application of Algebra to Geometry;
 Conic Sections;
 Mensuration;
 Natural Theology, (Paley's);
 Logic (Whately's) begun;
 Olmsted's Natural Philosophy, Hydrostatics, Pneumatics, Acoustics, Electricity, Magnetism and Optics;
 Chemistry commenced; *Works of Reference*, Kane's, Turner's and Graham's;
 Rhetoric (Whately's);
 Græca Majora continued, viz: Homer's Odyssey;
 Cicero de Officiis, de Senect., de Amicitia;
 Elocution and English Composition;
 Greek Testament on the Sabbath.

SECOND SESSION.

Chemistry completed;
 Anatomy, Physiology and Hygiene; *Text Book*, Cutter's; *Works of Reference*, Goddard's Wilson's Anatomy, Carpenter's Human Physiology, & Dunglison's Human Health;
 Mineralogy commenced (Dana's);
 Surveying;
 Analytical Geometry;
 Differential and Integral Calculus;
 Logic completed;
 Butler's Analogy;
 Rhetoric;
 Tacitus;
 Græca Majora cont'd., Homer's Odyssey;
 Hebrew, German, or French Languages, (optional);
 Greek Testament on the Sabbath.

Senior Year.

FIRST SESSION.

Political Economy (Wayland's);
 Græca Majora continued, Medea of Euripides;
 Tacitus;
 Differential & Integral Calculus complet.
 Mechanics (Olmsted's);
 Evidences of Christianity, (Alexander's, with Lectures,);
 Mental Philosophy, (Schmucker's, with Lectures,);
 Mineralogy completed;
 Agricultural Chemistry, (Johnston's Lectures and Stephens' Farmer's Guide,)
 Natural Philosophy, (Olmsted's);
 Civil Engineering, (optional);
 Hebrew, German or French Languages, (optional);
 Elocution and English Composition.

SECOND SESSION.

Moral Philosophy (Boyd's):
 Astronomy (Olmsted's);
 Geology (Hitchcock's); *Works of Reference*, Lyell's Principles of Geology, Buckland's Bridgewater Treatise, & Hugh Miller's Old Red Sandstone.
 Græca Majora continued, viz; Longinus;
 Horace's Art of Poetry;
 Law of Nations;
 Constitutional Law of the United States;
 Elocution and English Composition;
 Greek Testament throughout the year, on Saturday or the Sabbath.

Civil Engineering, and the Hebrew, German and French Languages, are taught without any additional expense.

MISCELLANEOUS INFORMATION.

.....

TERMS AND VACATIONS.

The stated vacations are during April and October. The Winter Session opens on the first Monday of November; the Summer Session on the first Monday in May.

The Commencement is held on the last Wednesday of September; and the meeting of the Alumni Association on the evening of the day of Commencement.

The Annual Address to the Alumni Association and Literary Societies, by some distinguished literary gentleman, is delivered the day previous to the Commencement.

Tuition, \$15 per session. English Department, \$10,50.— Tuition always paid in advance.

Good Boarding can be had in the town and vicinity at \$1,50 to \$2,00 a week. In the College Building, boarding and lodging are \$1,50.

Some of the Students board themselves; and the expense is from 50 to 62½ cents per week, with \$5 per Session for room rent.

A limited number of students are permitted to enjoy tuition free of expense.

.....

MENTAL DISCIPLINE.

With regard to the mode of instruction adopted in all the departments of the College, the Board take this occasion to remark, that it is designed to elicit the mental resources of the Student. The recitations are conducted with a rigid attention to accuracy. More regard is paid to the *quality* than the *quantity* of the recitations.

Mental discipline is kept steadily in view, as a primary object. Strict discipline is enforced, and diligence and industry on the part of the Students encouraged.

.....

PUBLIC WORSHIP.

The Students are required to attend every morning in the Hall, to the reading of the Scriptures and Prayer, accompa-

nied, frequently, with religious instruction and exhortation, designed to keep before their minds the importance of their personal salvation, with their responsibility to God and dependence on Him for success, usefulness and happiness. On the Sabbath they are required to attend on public worship, with that Church which their parents may direct, or they themselves prefer. There is, also, a meeting on Sabbath morning for Prayer, and reading the New Testament in the original Greek.

COURSE OF STUDIES.

It is important that Students, who are preparing to enter any of the College Classes, should pay attention to the **COURSE OF STUDIES**, and be prepared on those branches that precede the studies of the class which they may wish to enter, as they are previously examined on those branches. Young men often come prepared on parts of the Junior and Senior studies, having neglected some of those belonging to the Freshman and Sophomore years.

The scheme of studies, it will be observed, is such as to place this College on a footing with the most respectable Literary Institutions of the East. There are three Libraries, containing some thousands of volumes, connected with the College.—There are also Cabinets of Minerals, Oriental and Occidental Antiquities, Shells, Petrifications, &c., to which additions are occasionally made. A large and valuable addition to the Philosophical and Chemical Apparatus is being made.

It is to be understood that if any person should not wish to take a full course, he may be permitted to attach himself to any class for the purpose of studying particular branches.

MUSEUM.

The Board have recently appropriated several rooms for the use of the departments of Mineralogy, Zoology, Botany, and Works of Art. Many rare and valuable specimens of minerals, fossils, shells, coins, Indian, African and Chinese curiosities are arranged and labeled for the information and gratification of the Students and the public. Some valuable additions have been made during the current session.

Donations are still respectfully solicited from the Alumni, and all other friends and promoters of Natural Science.

BUILDINGS.

The College Buildings consist of two large edifices, affording accommodations for boarding students, and for the recitation of the several classes. The Halls of the Literary Societies of the College, are furnished and decorated with taste, and in a manner suitable to the purposes to which they are devoted.

.....

DEPARTMENTS OF LAW AND PHYSIOLOGY.

Two Professorships have been created, and the Professors, JOHN L. GOW, Esq., and JAMES KING, M. D., have delivered lectures—the former on *Municipal Law*, the latter on *Comparative Anatomy and Hygiene*. These Lectures are especially designed for the higher classes in College, but may be attended by other students who desire it, by permission from the Faculty

.....

IMPROVEMENTS RECENTLY ADOPTED.

The Trustees of Washington College have the pleasure of announcing to the public, that they have made additions to the Faculty, and the course of Instruction, which it is believed cannot fail to be of great advantage to Students, and to enlist still more extensively the confidence of the friends of education.

The system of study has been revised and enlarged; the Mathematical course has been much extended; and important branches not previously taught, have been introduced. To *Agricultural Chemistry* special attention will be given.

To carry out these improvements, a new Professorship of NATURAL SCIENCE has been created, and placed in charge of *Prof. Robert Milligan, A. M.*, a gentleman whose attainments, industry, and well-known qualifications as an Instructor, are a sufficient pledge that the branches of Modern Science, comprehended in this Department, such as Agricultural Chemistry, Mineralogy, Geology, Botany, Chemistry, Experimental Philosophy, &c., will receive systematic and thorough attention.—Arrangements are in progress to procure a complete apparatus, which will afford the very best facilities for scientific illustrations and experiments.

The REV. JAS. W. M'KENNAN, has been elected *Adjunct Professor of Languages*, and Rector of the Preparatory and English Department, and has entered upon his duties. His eminent fitness for the position, and his high Christian character,

are too favorably known to allow the necessity for any formal statement of what the Board have reasons to expect in securing, for this important branch of the College, the service and oversight of one so competent.

.....

LOCATION.

WASHINGTON, the seat of the location of Washington College, is situated near the Western border of PENNSYLVANIA upon the National Road; easy of access in all directions; and in point of morals, cheapness of living, and healthful climate, it is most favorably situated for the purposes of education. In the town are Churches of the several Christian denominations, some one of which the student is required to attend, on Sabbath, by a law of the College.

Inquiry may be addressed to Dr. Clark, President of the College; to Dr. Elliott, President of the Board, or to the Secretary, Dr. R. R. Reed, Washington, Pa.

.....

COMMENCEMENT.

The Commencement this fall will take place on Wednesday, the 24th day of September.

The Address to the Literary Societies will be delivered this fall by WILLIAM K. M'DONALD, Esq., of Newark, N. J.
